President's Message

October 24, 2017

Today is World Polio Day. It is one day and one focus... ending Polio. We have gotten so close to eradicating this disease, but there is still work to be done. The eradication of polio is one of the longest standing efforts of Rotary that has resulted in the immunization of 2.5 billion children.

At 2:30pm Pacific/Standard time you can join 50,000 other people around the world to learn about the progress being made. At today's meeting, we will hear from our newest members as they present their autobiographies. See you there!

President Steve

Rotary Sends Health Supplies to Ivory Coast of Africa

(Center) Dr. Agre using an eye microscope donated by Bay Eye Clinic

(Right) Equipment shipped from Bay Area Hospital

New Member Updates

The Board has approved the applications for membership of Candace McGowne and Sam Baugh. McGowne is the Director of Personnel & Business Services for the Coos Bay School District. Baugh is the Executive Director of the South Coast Development Council. The membership committee recommended membership approval before the two applications were brought to the board of directors.
